

Before your visit

Please bring the following information with you. Having this information may prevent a second visit and will help expedite your care

- A list of your current medications and allergies
- Dizziness and / and or tinnitus questionnaires (can be found here)
- Medical Intake Form (can be found here), including your past medical and surgical history
- A CD and report of any imaging studies that have been performed, including CT scans, MRI or ultrasound. If another physician has ordered these studies, you may be able to call their office and have them fax or send the results to us prior to your visit. If not, please bring a copy yourself if you are able.
- Hearing tests
- Balance tests
- Sleep studies
- Most recent set of labs
- Your medical insurance card - if applicable
